

InsuranceOnly's Dialer Access Program

... The Next Generation

"I love the new system - just submitted 2 apps for about \$3500 of premium! ...Agent Joe V.

- It's all about your valuable TIME. Now there is a life insurance lead generation and CONVERSATION program addressing this fact.
- The very latest, state of the art system for life insurance lead generation AND contact. Not just lead generation but lead generation and conversations with prospects.
- Forget DIALING! We do all the dialing—you just sell. Average 30 conversations and a SALE every hour!
- InsuranceOnly, a pioneer in the business of Life Insurance lead generation online since 1997, is allowing a select group of agencies access into our proprietary system.
- Agents put on a headset, log on to our automatic dialing system, push the green button and within seconds are talking to someone who has expressed interest in life insurance in the past 60 days.
- Once a sale is made a generic application is completed, push submit and we take it from there...all you have to do is SELL.
 - We complete the application packet with forms and highlighted areas to sign and overnight to your client.
 - We chase the clients to get the completed forms back to us.
 - We scrub the app and scan it to the carrier.
 - We manage the case through underwriting and deliver the policy.
 - Agents SELL.
- Investment in the program works out to be near \$100 per good “sale” or application out the door. We see 50% of these cases going in force. Average case is \$800 of annual premium.
